## Profitable Lease for Trade

Chance to Get Five Year Lease on Irrigated Farm Adjoining Denver.

I represent a client who has a five-year lease on an eighty-acre irrigated farm on the edge of Denver, which he wishes to trade for Box Butte county land. If you are a farmer and want a proposition that will make you big money, in addition to having a home in the city of Denver, with all its advantages, you should investigate this proposition. The income from this eighty acres was approximately \$98 per acre during 1912. It is an opportunity to make big money from farming. The farm is three and one-half miles east of the State Capitol building in Denver. Fine barn, 25 box stalls for cattle and stalls for eight head of horses. Good four-room house 2 blocks from street car line. 3 public schools within walking dis-

tance. City water, telephone. All under irrigation. 60 acres in fine stand of alfalfa. A very desirable proposition for a farmer with a family. If your capital is tied up in Box Butte county land here is a fine opportunity to exchange it for a long time lease on a big money-maker. Write or see Lloyd C. Thomas, Herald building, Alliance. 2042-18-14

## SPADE ITEMS

Geo. O. Mitchell, of Goshen Hole, Torrington, Wyo., passed through this way April 11th on his way to Ewing, Nebr., Holt county. Mr. Mitchell left Torrington April 1st. He has a claim in Goshen Hole, which is about 20 miles from Torrington.

There was a red hot meeting of the Booster's Club held at Strasburger April 12th, and was well attended by the surrounding country. J. B. Strasburger, C. A. Starr and H. S. Wright were the speakers of the day on different subjects for the benefit of the county at large. Almost everyone present mentioned something that would be a benefit to the hills and Sheridan county in general.

C. L. Argo is again in the sand hills. He came down to do the assessing work.

Gustaf Sandoz is about through moving his belongings to his other place. About all he has to take away yet is his one-fourth of the trees on the place, and they are sure looking fine.

H. S. Wright had to get out and rustle up some hay, which was found over at Glen Squires. But the hay did not look as first-class as it ought to look and be, but hay is hay. Better than none at all.

Harry McMillan arrived lately from Omaha and expects to pay this country a short visit, which his neighbors will appreciate and enjoy very much. Harry has a claim here in the hills.

C. A. Starr and wife will go to Alliance Thursday to prove up on Mr. Starr's claim, Saturday. Thence to Denver, Colo., for a good visit with Mrs. Starr's relatives who live there.

Wm. Philpot was wondering where to get a plow and we told him to buy a new one at once. It seems that Wm. plow is in the hospital at Lakeside, but when he came to church Sunday William had a plow in his wagon, which goes to show he means business in an agricultural way.

J. B. Strasburger says that he has no more hay for sale, for he has sold it all out, and saved the lives of a few head of stock. From the looks of the cattle that are going to get a feast of the hay they should have had it a good while ago. That is, some of them—about forty head in one drove.

The people that are riding all over the country to get the papers that contain the Spade Items should subscribe for the paper and would save horse flesh by doing so, and have the paper come to their doors.  
HAPPY HOURS.

**Ladies, read the advertisement of Regan's ten days sale**

## SIoux COUNTY ITEMS

Hillcrest Cor. Curly Sentinel, April 10:

Mr. Albert Colerick brought his wife home Thursday. The trip was a tiresome one considering her weakened condition after her long illness and an operation at the Alliance hospital. We all rejoice with them to know she is safe at home with her family after so long a time.

Mrs. Nellie Sage is preparing to move to Alliance in the near future. Miss Bertha Huston now has the homestead she occupied. She feels her venture at homesteading has been most disastrous, as out of the five stock she brought here, she only has one cow and some chickens to take back with her.

Miss Bertha Huston, one of the neighborhood's fairest daughters, is at home for a short visit and a rest from school work. She has been teaching near Alliance, now she will begin a session in the Denton district, southeast of Mud Springs. She will be at home to her friends on her homestead from Friday evening till Monday of each week.

**Practical Ventilating Hint.**  
The house should be ventilated in winter as well as in summer if the family is to be kept in good health. Bedrooms, especially, should be provided with a free circulation of fresh air. One way to get fresh air in a bedroom without having a draft is to tack strips of cheesecloth across the top and the bottom of the window so that when it is opened in both places the fresh air will enter the room and yet, should there be a strong wind, its force will be broken by the cloth.

**Had No Time.**  
Miss Specs—"Charles, did you ever allow your mind to pierce the secrets of the universe, to reason that this dull, cold world is but the sepulchre of ages past, that man in all his glory is but the soil we tread, which every breeze wafts in an overshifting maze, to be found and lost in an infinity of particles—the dust of centuries, reunited and dissolved as long as time shall endure?" Charles—"No, I can't say I have. You see, I've had to earn my own living."—Stray Stories.

**Stone a Druid Relic.**  
A large buried stone, concealed for over thirty years near Anwick church, Sleaford, England, in order to be out of the way of the plough, was described the other day, to the Lincolnshire Naturalists' Union as a Druid relic. The upper part of the stone had been flattened and an irregular shaped basin formed to catch snow or rain used for ritual purposes.

**Dickens Most Widely Known.**  
If it be true to say of any author that everybody has read him, that author is Dickens. He is more of a national institution today than Shakespeare, whose works, praised and perverted, explained and darkened, by an amazing mass of commentators today, are not, in our experience, really known to the average reader.—London Athenaeum.

**Eyeglasses and Steam.**  
Wearers of eyeglasses are greatly troubled with the steam caused by the heat of the eye. This may be prevented by rubbing the glasses with soap daily. They may be polished bright after application, but an invisible film is retained which will prevent the deposit of moisture.

**What is Time?**  
What is time? The shadow on the dial, the striking of the clock, the running of the sand—day and night, summer and winter—months, years, centuries; these are but arbitrary and outward signs, the measure of Time, not Time itself. Time is the Life of the Soul.—Longfellow.

**"Logging Engineering."**  
A chair of "logging engineering" has queer sound, but out in Washington the lumbermen insist that they need it in the state university in their business. There are possibly in some eastern colleges professorships more impressively titled that are not of as much practical value.

**Jap Baker's Sign.**  
The oriental capacity for using our mother tongue with strange twists of unconscious humor is well known, but few examples are equal to this delicious sign on a Japanese baker's shop: "A Karinura, Biggest Loafer in Tokyo."—Oriental Review.
